

Safety Data Sheet

1. Identification

GHS Product identifier: ANTI-BAC FS
Company Name Address: HY.GIENE Australia Pty. Ltd.
9/8 Garden Road, CLAYTON, VIC 3168
Telephone: (03) 9729 3946
Emergency contact: 1800 616 930
Recommended use: Food Industry Degreaser Cleaner Disinfectant Foaming Sanitiser
Other Information: **Hospital Grade Disinfectant - Kills 99.99% of germs including Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella choleraesuis and CORONAVIRUS SARS-CoV-19 (COVID-19) at the dilution rate of 1:4 (20%). ARTG No. 353369.**
Other names: COVID-RID manufactured by Zuccon Pty Ltd

2. Hazard Identification

Statement of Hazardous Nature

This product is classified as Hazardous according to the criteria of SWA.
NOT a Dangerous Good according to the Australian Dangerous Goods (ADG) Code version 7.

GHS Signal Word (s) **WARNING**

Hazard Statement(s) H315 Causes skin irritation.
H320 Causes eye irritation.

GHS Pictogram (s)

Precautionary statement(s)

Prevention P233+P234: Keep only in original container. Keep container tightly closed.
P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.

Response P353 Rinse skin or shower with water.
P301+P330+P338: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P305+P351+P338: IF IN EYES: Rinse with water for several minutes.
Remove contact lenses, if present. Continue rinsing.

P332+P313: If skin irritation occurs: Get medical advice.
P337+P313: If eye irritation persists: Get medical advice.
P391: Collect spillage.
P370+P378: Not combustible. Use extinguishing media suited to burning materials.

Storage P403 + P235 Store in a well-ventilated place. Keep cool.

Disposal P501 Dispose of small quantities and empty container by wrapping in paper and placing in garbage.

3. Composition/information on ingredients - Formulated with 'Third Generation' QACs

<u>Name</u>	<u>CAS no.</u>	<u>Proportion</u>	<u>Hazard symbol</u>	<u>Risk phrase</u>
Butyl Glycol Ether	111-76-2	LOW	Xi	R36/38
Quaternary Ammonium Compounds	107028-70-6	V LOW	Xi	R36/38
Potassium Hydroxide	1310-58-3	V LOW	Xi	R36/38
KEY: Proportion, (wt %)		V HIGH >60, HIGH 30 - 60, MED 10 -29, LOW 1-9, V LOW <1		

4. First-aid measures

Ingestion:	Rinse mouth with water. Never give anything by mouth to an unconscious person. Consult a physician.
Skin:	Wash off with soap and plenty of water. Consult a physician.
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.
Inhalation	If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.
First Aid Facilities	Maintain eyewash fountain and safety shower in work area.
Advice to Doctor	Treat symptomatically. Consult Poisons Information Centre
Other Information	For advice, contact the National Poisons Information Centre (Phone Australia 13 11 26 and New Zealand 0800 764 766) or a doctor.

5. Fire-fighting measures

Hazards from Combustion products

This product is likely to decompose only when heated to dryness. Complete decomposition is likely to release carbon dioxide; incomplete combustion is likely to release carbon monoxide and smoke.

Suitable extinguishing media

Use extinguishing media most appropriate for the surrounding fire such as water, foam or dry agent (carbon dioxide, dry chemical powder). If safe to do so, move undamaged containers from the fire area. If a significant quantity (>200L) of this product is involved in a fire, call the fire brigade.

Specific hazards arising from the chemical

There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. This product is likely to decompose only after heating to dryness, followed by further strong heating.

Precautions in connection with fire

Wear SCBA and chemical splash suit. Fully encapsulating, gas-tight suits should be worn for maximum protection.

6. Accidental release measures

Personal Precautions	Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. For personal protection see section 8.
Personal Protection	Wear protective clothing specified for normal operations (see Section 8)
Clean-up Methods- Small Spillages	Minor spills do not require special clean up measures or emergency procedures. Wear recommended personal protective equipment outlined in Section 8 when containing any spillage.
Large Spillages	Seek expert advice on handling and disposal.
Environmental Precautions	Prevent further leakage or spillage if safe to do so. Do not let product enter drains or waterways.

7. Handling and storage

Precautions for Safe Handling	Product is safe to handle under normal conditions of use.
Conditions for safe storage	Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.
Incompatible products	None known
Incompatible materials	None known

8. Exposure controls/personal protection

Occupational exposure limit values

<u>Name</u>	<u>STEL</u> (mg/m ³)	<u>TWA</u> (mg/m ³)
Butyl Glycol Ether	242	96.6
Quaternary Ammonium Compounds	Not Set	Not Set
Potassium Hydroxide	-	2

STEL - Short Term Exposure Limit, TWA – Time Weighted Average

Appropriate engineering controls	In industrial situations maintain the concentrations values below the TWA. This may be achieved by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods.
Personal Protective Equipment	Final choice of personal protective equipment will depend on individual circumstances and/or according to risk assessments undertaken
Respiratory Protection	Where ventilation is not adequate, respiratory protection may be required. Avoid breathing dust, vapors or mists. Respiratory protection should comply with AS 1716 - Respiratory Protective Devices and be selected in accordance with AS 1715 - Selection, Use and Maintenance of Respiratory Protective Devices. Filter capacity and respirator type depends on exposure levels. In event of emergency or planned entry into unknown concentrations a positive pressure, full-face piece SCBA should be used. If respiratory protection is required; institute a complete respiratory protection program including selection, fit testing, training, maintenance and inspection.
Eye Protection	The use of a face shield, chemical goggles or safety glasses with side shield protection as appropriate. Must comply with Australian Standards AS 1337 and be selected and used in accordance with AS 1336.
Hand Protection	Avoid skin contact when removing gloves from hands, do not touch the gloves outer surface. Hand protection should comply with AS 2161, Occupational protective gloves - Selection, use and maintenance. Recommendation: Nitrile rubber gloves.
Footwear	Safety boots in industrial situations is advisory, foot protection should comply with AS2210, <i>Occupational protective footwear - Guide to selection, care and use.</i>
Body Protection	Clean clothing or protective clothing should be worn, preferably with and apron. Clothing for protection against chemicals should comply with AS 3765 Clothing for Protection Against Hazardous Chemicals.
Hygiene Measures	Do not eat, drink or smoke in work areas. Wash hands thoroughly after handling this material. Maintain good housekeeping.

9. Physical and chemical properties

Appearance	Thin, clear-coloured liquid
Odour	Characteristic (unscented)
Melting Point	~0 °C
Boiling Point	~ 100 °C
Flash point	Not applicable
Vapour Pressure	~ 2 kPa at 20°C (water vapor pressure)
Solubility	Miscible with water in all proportions.
Specific Gravity	1.0 g/cm ³ @ 20 °C
pH	9.5 - 10.0
Viscosity	<100 cPs @ 20 °C
Percent volatile	> 90 %
Flammability	Non flammable

10. Stability and reactivity

Chemical Stability	Stable under normal conditions of use.
Conditions to Avoid	No special conditions. Refer to storage conditions in Section 7.
Incompatible Materials	None known.
Hazardous Decomposition products	This product is likely to decompose only when heated to dryness. Carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke are likely to be produced when heated to dryness.
Possibility of hazardous reactions	Not determined.
Hazardous Polymerization	Will not occur.

11. Toxicological Information**Acute toxicity**

Health effects from the likely routes of exposure:

Inhalation

Not expected to cause respiratory irritation.

Skin	Not expected to cause irritation.
Eye	May cause slight irritation/discomfort.
Ingestion	May result in irritation to the gastrointestinal tract.
Target Organs	There is no data to hand indicating any particular health effects on target organs.

12. Ecological information

Ecotoxicity	No data available.
Persistence and Degradability	No data available.
Major ingredients are biodegradable and will not accumulate in soil or water or cause long term problems.	

13. Disposal considerations

Disposal Considerations Avoid release of product to the environment. Product and containers are suitable for landfill. Containers should be emptied as completely as practical before disposal.

14. Transport information

U.N. Number	None allocated
UN proper shipping name	None allocated
Transport hazard class(es)	None allocated
Hazchem Code	None allocated
Packing Group	None allocated

15. Regulatory information

Regulatory Information	Ingredients listed in the Australian Inventory of Chemical Substances (AICS).
Poisons Schedule	None allocated

16. Other Information

Date of preparation or last revision of SDS - 01/08/2023 Reason for issue: Address change

This information was prepared in good faith from the best information available at the time of issue. It is based on the present level of research and to this extent we believe it is accurate. However, no guarantee of accuracy is made or implied and since conditions of use are beyond our control, all information relevant to usage is offered without warranty. The manufacturer will not be held responsible for any unauthorised use of this information or for any modified or altered versions.

If you are an employer it is your duty to tell your employees, and any others that may be affected, of any hazards described in this sheet and of any precautions that should be taken.

Safety Data Sheets are updated frequently. Please ensure you have a current copy.
