# Safety Data Sheet

# 1. Identification

| GHS Product identifier: | Purge Spa Bath Pipe Degreaser      |
|-------------------------|------------------------------------|
| Company Name:           | HY.GIENE Australia Pty. Ltd.       |
| Address:                | 9/8 Garden Road, CLAYTON, VIC 3168 |
| Telephone:              | (03) 9729 3946                     |
| Recommended use:        | SPA bath pipe degreaser            |
| Other Names:            | 606                                |
| Emergency contact:      | 1800 616 930                       |
|                         |                                    |

# 2. Hazard Identification

| Statement of Hazardous Nature  |  |   |
|--|--|---|
| Hazardous according to the criteria of Safe Work Australia.<br>NOT a Dangerous Good according to ADG Code. |  |   |
| Signal Word  | <b>DANGER</b><br>Skin Irritation<br>Serious eye damage | Category 2<br>Category 1  |

| KEY: Proportion, (wt %) - V HIGH >60 | ), HIGH 30 - 60, MED 10 | –29, LOW 1-9, V LOW < | 1             |                    |

Non hazardous proprietary ingredients to 100%

# 4. First-aid measures

| Ingestion:<br>Skin:                   | Rinse mouth with water. Never give anything by mouth to an unconscious person. Consult a physician.<br>Wash off with soap and plenty of water. Consult a physician.                              |
|---------------------------------------|--|
| Eye contact                           | Rinse thoroughly with plenty of water for at least 15 minutes and consulta physician.  |
| Inhalation                            | If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.  |
| First Aid Facilities                  | Maintain eyewash fountain and safety shower in work area.  |
| Advice to Doctor<br>Other Information | Treat symptomatically. Consult Poisons Information Centre<br>For advice, contact the National Poisons Information Centre (Phone Australia 13 11 26 and New Zealand 0800<br>764 766) or a doctor. |

## 5. Fire-fighting measures

| Hazards from Combustion<br>Products | No data available.  |
|-------------------------------------|---|
| Suitable extinguishing media        | Use extinguishing media most appropriate for the surrounding fire such as water, foam or dry agent (carbon dioxide, dry chemical powder).If safe to do so, move undamaged containers from the fire area If a significant quantity (>200L) of this product is involved in a fire, call thefire brigade |
| Specific hazards arising            |   |
| from the chemical                   | There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. This<br>product is likely to decompose only after heating to dryness, followed by further strong heating.  |
| Precautions in connection with fire | Wear SCBA and chemical splash suit. Fully encapsulating, gas-tight suits should be worn for maximum protection.   |

#### 6. Accidental release measures

| Personal Precautions                        | Use personal protective equipment. Avoid breathing vapours, mist or gas. Ensure adequate ventilation.<br>Evacuate personnel to safe areas. For personal protection see section 8. |
|---|---|
| Personal Protection                         | Wear protective clothing specified for normal operations (see Section 8)  |
| Clean-up Methods-                           |   |
| Small Spillages                             | Minor spills do not require special clean up measures or emergency procedures. Wear recommended personal protective equipment outlined in Section 8 when containing any spillage. |
| Large Spillages<br>Environmental Precaution | Seek expert advice on handling and disposal.<br>s Prevent further leakage or spillage if safe to do so. Do not let product enter drains or waterways.                             |

## 7. Handling and storage

| Precautions for Safe Handling Product is safe to handle under normal conditions of use. |   |  |
|---|---|--|
| Risk Phrases  | R36/38 Irritating to eyes and skin.   |  |
| Conditions for safe storage   | Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are |  |
|   | opened must be carefully resealed and kept upright to prevent leakage.                                      |  |
| Incompatible products   | None known  |  |
| Incompatible materials  | None known  |  |

## 8. Exposure controls/personal protection

Issued by HY.GIENE Australia Pty. Ltd.

# 9. Physical and chemical properties

| Appearance       | Thin, red-coloured liquid.           |
|------------------|--------------------------------------|
| Odour            | Characteristic                       |
| Melting Point    | ~0 °C                                |
| Boiling Point    | ~100°C                               |
| Flash point      | Not applicable                       |
| Vapour Pressure  | Not determined                       |
| Solubility       | Miscible in water in all proportions |
| Specific Gravity | 1.02 g/cm <sup>3</sup> @ 20 °C       |
| рН               | 11.5 – 12.5 as supplied              |
| Viscosity        | Not determined                       |
| Percent volatile | > 85 %                               |
| Flammability     | Non flammable                        |

No known significant effects or hazards

Page 4 of 4

### 10. Stability and reactivity

| Chemical Stability<br>Conditions to Avoid<br>Incompatible Materials | Stable under normal conditions of use.<br>No special conditions. Refer to storage conditions in Section 7.<br>Acids. |
|---|--|
| Hazardous Decomposition<br>products                                 | Not available.   |
| Possibility of<br>hazardous reactions                               | Not determined.  |
| Hazardous Polymerization  | Will not occur.  |

### **11. Toxicological Information**

#### Acute toxicity:

|  | Acute toxicity.   |  | No known significant cricets of hazaras. |
|--|---|--|--|
|  | STOT, Specific Target Organ Toxicity (repeated exposure): |  | No known significant effects or hazards. |
| Health effects from the likely routes of exposure: |   |  |  |
|  | Inhalation  | Irritant to the throat and nose.         |  |
|  | Skin  | Corrosive to the skin.                   |  |
|  | Eye   | Corrosive to the eyes.                   |  |
|  | Ingestion   | May result in irritation to the gastroin | testinal tract. Harmful ifswallowed.     |
|  |   |  |  |

#### **12.** Ecological information

| Ecotoxicity     | No data available. Harmful to aquatic organisms due to product's pH. |
|-----------------|--|
| Persistence and |  |
| degradability   | No data available. Major components are biodegradable.               |

### 13. Disposal considerations

| Disposal Considerations | Avoid release of product to the environment. Product and containers are suitable for landfill. Containers should |
|-------------------------|--|
|                         | be emptied as completely as practical before disposal. Check with Waste Disposal Authority before disposal.      |

#### 14. Transport information

| U.N. Number             | None allocated |                                     |
|-------------------------|----------------|-------------------------------------|
| UN proper shipping name | None allocated |                                     |
| Transport hazard class  | None allocated | NOT classified as a Dangerous Good. |
| Hazchem Code            | None allocated |                                     |
| Packing Group           | None allocated |                                     |

#### 15. Regulatory information

Regulatory InformationIngredients listed in the Australian Inventory of Chemical Substances (AICS).Poisons ScheduleNone allocated
